Cal OES COASTAL REGION

Apartment Complex Fire, Concord, Contra Costa County

On 04/24/18 at 0030 hours, a large fire broke out at a multi-story apartment building in Concord, Contra Costa County.

- The apartment complex was an unoccupied five story structure at the corner of Clayton and Galindo in Downtown Concord.
- The complex was under construction and was approximately 70% complete.
- Destroyed unit is approximately 260,000 square feet with 180 units and an attached parking garage.
- Per the Cal OES Fire Duty Officer (FDO) the fire is currently under control and will have some impacts on the morning commute. Crews will be overhauling throughout the morning.
- There are no outstanding mutual aid requests or assistance needed and no unmet needs.
- Cal OES Duty Officers are monitoring the situation and providing updates as warranted.

Evacuations

Per the Cal OES Law Duty Officer (LDO):

- An estimated 250 occupants are currently under evacuation from Renaissance Square, a separate apartment building with 134 units, next-door to the fire.

Evacuation Center

Per the Contra Costa OES Manager, via the Cal OES Coastal Region Duty Officer:

- Red Cross has set up an Evacuation Center at a park on Todos Santos Plaza, 2175 Willow Pass Rd., Concord.
- There are approximately 20 persons gathered at the evacuation center.
- First Presbyterian Church at 1965 Colfax St, Concord, a block away, will be serving breakfast for evacuees.
- Evacuees are expected to return within the next couple of hours.
- There is no need for a shelter.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

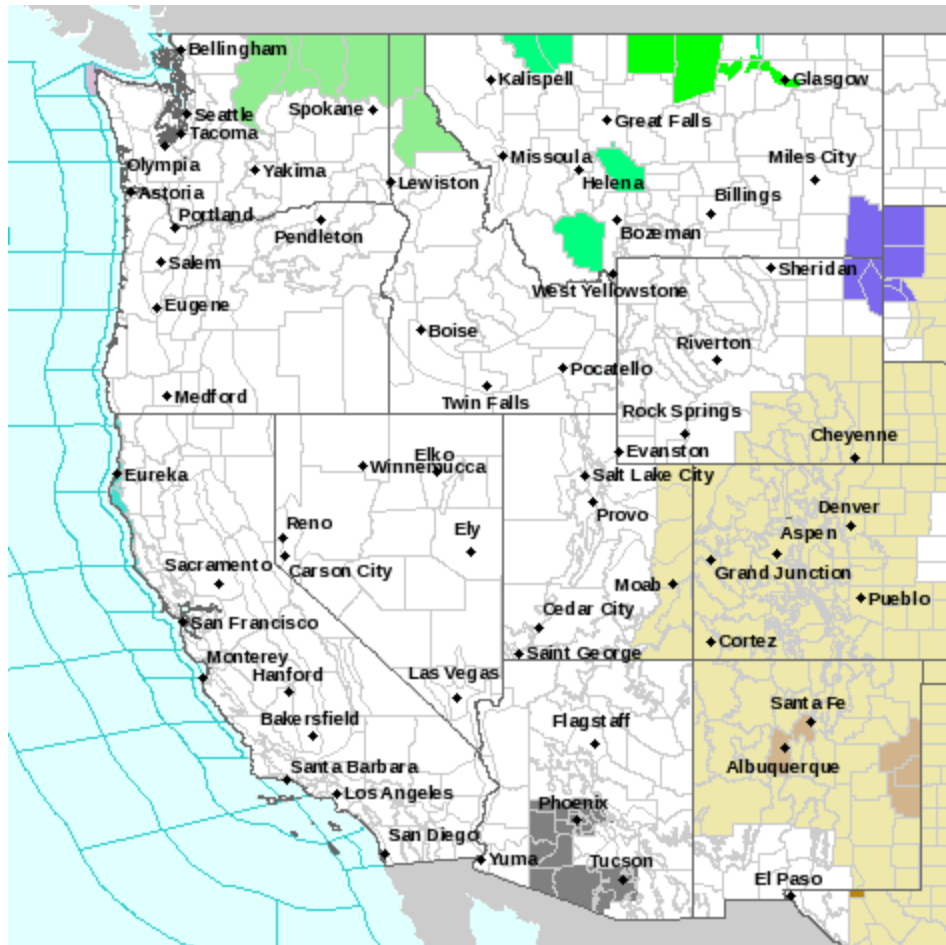

High pressure will be over Northern California today, then gradually move east through midweek. Today will be warm and dry with only a few high clouds. Temperatures will continue to be near 15 degrees above normal and minimum afternoon humidity will be in the teens. Northerly winds are gusting to 20-30 mph in wind-prone areas from the western Cascade-Sierra slopes to the coastal range today and will return tonight and early Tuesday at slightly lighter speeds.

Low pressure dropping down from the Gulf of Alaska will set up off the central CA coast by late Tuesday and begin to bring cooler and more humid conditions into Northern California. Southerly winds and clouds will increase late Tuesday. A few mountain showers are possible late Tuesday as well. From Wednesday through next weekend there will be a daily chance of showers and thunderstorms in the mountains as the low stays in place. The chances will mainly be during afternoons and evenings. Lower elevations may also see a stray shower or thunderstorm.

SOUTHERN CALIFORNIA

A ridge of high pressure over the West Coast will bring warm temperatures and low humidity away from the coastal areas through Thursday. Maximum temperatures will be 10 to 15 degrees above normal, with upper 60s and 70s across the mountains and 80s to low 90s in the valleys. Minimum humidity will be mainly in the teens. Winds will be light through Thursday morning, except there will be gusty winds associated with a sea breeze pushing inland each afternoon. An area of low pressure will approach and move inland across Northern California bringing significant cooling and a big increase in humidity Friday through this weekend. Shower activity will most likely stay to the north of the area, but the marine layer will become deep, with morning low clouds and fog making it over the lower coastal mountain slopes by Saturday morning. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the mountain ridges and desert passes Thursday afternoon through this weekend.
